### [Communicated.] FOR THE DEMOCRAT.

Editor Stark County Democrat

All men agree that our government is corrupt One class say that the only way is to turn the water of public indignation and clean the Augean Stable, like Hercules of old, with one rushing, surging dash. Others say that the party in power can and will purify itself, and yet they admit the government is getting more corrupt every day. On what foundation the second class base their argument I can't see. History logic and philosophy is against them. If the Radicals can purify themselves why don't they do it, they have had plenty of time. Do they think festering will cease when the bone is reached; no, it will penetrate the very marrow. There is cause and effect for everything. The mighty empire of Rome fell after conquering the world with its arms, and instructing mankin't with its wisdom, because of the corruption of its rulers. Why from an historical or philosophical point of view it would even been stranger if the Radicals had proved them-selves capable of running successfully the gov-erument in time of peace after waging the war. Let us remember the text taken from the politi-

cal gospel of our Revolutionary Fathers according to Washington, "eternal vigilance is the price of liberty." From Wheeler and Hayes and Radical days deliver us—from Belknap and Casey and stealing made easy, deliver us—from Grant and Babcock and all of that stock deliver us, If hell was pumped from its carpet-bagging bot-

tom nothing would be thrown up worse than a large portion of our Federal Rulers. The man who writes the history of the Radical party for these past eight years will have a big disagreeable job to perform. M.

## SHOT IN A FREIGHT CAR.

OBBVILLE, O., July 21,-Two men named Hyde and Cannon jumped into a box car on a freight train passing here early this morning, with the intention of stealing a ride. They found another man in the car. Cannon asked him where he came from; he said Chicago. Cannon then asked him for a match, and received no reply. Then Hyde asked him if he had a match about him. when the man drew a revolver and shot Hyde, the ball taking effect in the left temple. Cannon jumped up and grasped the man, who was standing near the open door, when the latter tried to throw Cannon out of the door, but lost his balance and fell out backwards, grabbing Hyde, who was insensible, and pulling him out of the car also.

The train was about one mile east of here, and running at the rate of fitteen miles per hour. Can-non went on to Massillon and told the operator what had happened, and he informed the operator at this piace, who got help and went to see if they could find the parties. They found Hyde at the bottom of an embankment, about twenty feet from the track, but no trace of the man who shot him. Hyde's parents live in Syracuse, New York. He is in a bad condition and cannot live.

NEW PUBLICATIONS.

Blackwoos's Magazine for July, just republished by the Leonard Scott Publishint, Co., New York, presents a choice selection of varied reading for summer weather. Much of the early fame of this popular magazine was earned by well written short tales and sketches similar to those which appear in the present number. The following are the contents: A Woman Hater, Part II; In a Studio-Conversation No. V; John's Hero; A Wanderer's Letter, No. III; Lady Adelaide, a Study; The Eastern Question; The Autobiogra-phy of a Joint-Stock Company (Limited).

The following lines are said to be the original of one of our young Canton authors. The verses dedicated to his sister are most appropriate :

A remarkable death was caused in Dayton on We inesday by the bursting of a soda tank. Mr. Sachs was engaged in injecting carbonic acid gas into the machine, when one end of the cask blow out, crushing to splinters the end of a heavy three inch plank with which it came in contact. The unfortunate man was standing between the generating tank and the cask. An iron clamp holding the hose gave way, striking the lower law and crushing in the base of the brain. At the same time the recoil of the hose struck him on the left breast over the heart with sufficient force of itself to cause instant death. The unfortunate man iropped dead to the floor without a groan. Springfield, O., July 20.—The jury this morn

## The Celebrated 'Massillon' Thresher

As usual takes the lead among Threshers. For DURABILITY, ECONO-MY, AMOUNT and QUALITY of work, and adaptation to all kinds and conditions of grain, it stands unrivalled.

## OUR CLOVER HULLER

We take pleasure in again bringing before you our Single Cylinder Combined Clover Thresher and Huller. Its superiority has been proved, as the evidence of experienced Threshermen will show. It is LIGHTER than any other Combined Thresher and Huller made, though equally strong and durable. It threshes and hulls with one cylinder, saving largely in power, it being the lightest running Huller made. Though the machine is lighter, its capacity is large, exceeding that of the heavier Hullers.
